Environmental Physics (DIFA)  
Prof. **Aurelia Sole**

### INVITATION LETTER

Dear Dr. P. Soupios,

In the framework of PROIDRO project, we have pleasure to invite you in the days 2 – 3 of May 2012 to give two seminars via skype on **Innovative geophysical methods in landslide risk assessments**.

PROIDRO (hydrogeological risk professionals ) is a postgraduate course for geologists and engineers working in the field of landslide and flood risk.

The project is directed by the Department of Engineering and Environmental Physics (DIFA), University of Basilicata, in Potenza, ITALY.

Number of teaching hour: 12

Number of students at the host institution benefiting from the teaching programme: 15 – 20.

Prof. **Aurelia Sole**  
University of Basilicata
